

CENTRAL JERSEY COLLEGE PREP
CHARTER SCHOOL
17 Schoolhouse Rd., Somerset NJ 08873

11.04.2009

Dear Parents,

I would like to inform you about the results of schoolwide assessment we have administered during the month of September. Attached you will find individual student reports from the TerraNova. Assessment is an important part of our Data Informed Instruction system. Outcomes of these assessments are shared with teachers so that they can tailor the instruction to better fit the needs of our students. It is very important for us that everyone understands the importance and the role of these schoolwide assessments. They provide valuable information to everyone in the building in ensuring the mastery of state standards and college readiness skills.

TerraNova is a standardized achievement test produced by CTB McGraw-Hill. The test provides a measurement of achievement of individual students relative to a current nationwide normative group and relative program effectiveness based on the results of groups of students. The included Student Subtest & Objective Report provides information about mastery levels for English and Mathematics standards and skills. Your child's scores are compared to the National Percentile of students taking TerraNova. The higher the number the better the performance.

Please be advised that these tests have been given at the beginning of the school year to provide baseline data. Tests are cumulative and measure specific standards and skills, not necessarily specific classwork.

Please do not hesitate to contact me should you have any questions.

Educationally yours,

A handwritten signature in black ink, appearing to read "Bekir Duz", written over a horizontal line.

Bekir Duz

Chief Education Officer
